

Train the Future. Print the Future.

Professional Printing Solutions for Schools, CTE & Govt Training Programs

DTG · DTF · DTG/DTF · UV · UV-DTF

About DTGPRO for Education

DTGPRO specializes in helping **schools, vocational programs, CTE classrooms, universities, makerspaces, and government training departments** implement industry-relevant printing technology. These systems allow students to learn real-world production workflows and build marketable skills for careers in design, manufacturing, and entrepreneurship.

Apparel Decoration	Product Customization	Signage & Graphics	Label Production	Prototyping & Innovation	Entrepreneurship
--------------------	-----------------------	--------------------	------------------	--------------------------	------------------

Many schools use these technologies to produce **school merchandise, spirit wear, fundraiser items, and branded products**, while also giving students valuable skills in design, production, and small business operations.

Recommended Printing Systems for Education Programs

The most sought-after printing systems used in school, vocational, and government training environments today. Each system includes technology type, description, and program fit.

Ricoh Ri1000X DTG / DTF Hybrid

About

A versatile professional garment printer capable of both Direct-to-Garment (DTG) and Direct-to-Film (DTF) workflows — giving programs the power to teach multiple production methods from a single platform.

<https://dtgpro.com/cicproduct/ricoh-ri1000x>

Best For:

- ▶ Advanced apparel decoration programs
- ▶ Entrepreneurship classes
- ▶ Student-run merchandise businesses
- ▶ Professional garment production training

DTFLINE Vantage Printer DTF

About

A powerful Direct-to-Film (DTF) printer designed for producing vibrant transfer prints that can be applied to cotton, polyester, and blended fabrics — ideal for school spirit wear and student apparel brands.

<https://dtgpro.com/cicproduct/dtflines-vantage>

Best For:

- ▶ T-shirt printing programs
- ▶ School spirit wear production
- ▶ Student apparel brands
- ▶ Print shop style vocational programs

xTool Studio DTF Printer DTF

About

A modern DTF printing solution designed to make apparel transfer production accessible for classrooms and training environments seeking a streamlined, professional workflow.

<https://dtgpro.com/cicproduct/xtool-dtf-studio-printer>

Best For:

- ▶ CTE apparel programs
- ▶ Intro garment transfer workflows
- ▶ School stores and merchandise production
- ▶ Entrepreneurship classes

EUFYMAKE E1 UV Printer UV

About

A next-generation UV printer capable of printing directly onto hard goods and promotional products — opening new possibilities for product customization and innovation-focused coursework.

<https://dtgpro.com/cicproduct/eufymake-e1>

Best For:

- ▶ Innovation labs
- ▶ Product customization
- ▶ Signage and packaging design
- ▶ Promotional item decoration

Roland BD-8 UV

About

A compact desktop UV printer ideal for direct printing on materials such as acrylic, wood, plastic, and promotional items. Perfect for design labs and creative technology classrooms.

<https://dtgpro.com/ciccategory/uv-printers>

Best For:

- ▶ Makerspaces
- ▶ Product design programs
- ▶ Signage and graphics courses
- ▶ Creative technology labs

Genesis VX UV-DTF

About

A professional UV-DTF transfer system that produces durable adhesive transfers which can be applied to almost any surface without a heat press — enabling specialty decoration across a wide variety of projects.

<https://dtgpro.com/cicproduct/uvdtf-genesis-vx>

Best For:

- ▶ Tumblers and drinkware
- ▶ Awards and plaques
- ▶ Labels and decals
- ▶ Specialty decoration projects

Ricoh Ri100 DTG

About

A classroom-friendly Direct-to-Garment printer perfect for introducing students to garment printing. An ideal entry point for apparel design courses and school merchandise programs.

<https://dtgpro.com/cicproduct/dtg-ricoh-ri-100>

Best For:

- ▶ Intro digital printing programs
- ▶ Apparel design classes
- ▶ School merchandise production
- ▶ Beginner garment decoration training
